COLLECTION 2027

With great pleasure, we present our new collection, the result of months of close collaboration with our trusted partners in Flanders and India. Together, we have carefully selected and developed new designs that complement our previous collections while continuing to reflect our passion for timeless rugs, exceptional quality, and refined craftsmanship.

This year, we are proud to introduce our new **Designer Collection**, featuring artistic creations by **Sofie Neiryck**. This collection represents a bridge between our general collection and the exclusive **Rêveries Collection**, bringing together creativity, emotion, and contemporary design in a unique way.

At the heart of our philosophy lies a deep respect for tradition, creativity, and responsible production. We continue to search for sustainable materials and carefully select partners who share our commitment to **quality craftsmanship and ethical working conditions**.

Each rug in this collection tells a story of expertise, dedication, and collaboration. It represents the unique skills of artisans who transform materials into pieces that bring character and warmth to every interior.

Together, let's create beautiful spaces
that inspire and captivate.

Powering a sustainable future

a We are proud to offer a range of products made from recycled materials and items that are entirely biodegradable. These eco-friendly options help **reduce waste** and **promote sustainability**. You can easily spot them in our catalog by looking for the  icon, making it simple to choose environmentally responsible products.

a Our **PANAREA collection** features rugs crafted from high-quality New Zealand wool leftovers, sorted by colour into different categories. Each rug is **unique** in its own way, while still maintaining a consistent look with others in the same colour group. Discover this one-of-a-kind, eco-friendly design on page 126 of our catalog.

a We have the majority of our rugs **woven locally**, helping to significantly reduce our ecological footprint. By choosing local production, we **minimize transportation**, ensuring **a lower environmental impact**.

a The wool used in our **CHIARA rugs** is completely natural, with no chemicals used. The color you see is the **natural color of the sheep's wool**. Additionally, the viscose in these rugs is made from **recycled** wood fibers, ensuring an **eco-friendly and sustainable product**.

a | Maintenance & stain removal

The cleaning and maintenance label James has developed a number of unique services to help you in every situation.
One such free and unique service is

"James' personal maintenance advice"

Cleaning with water

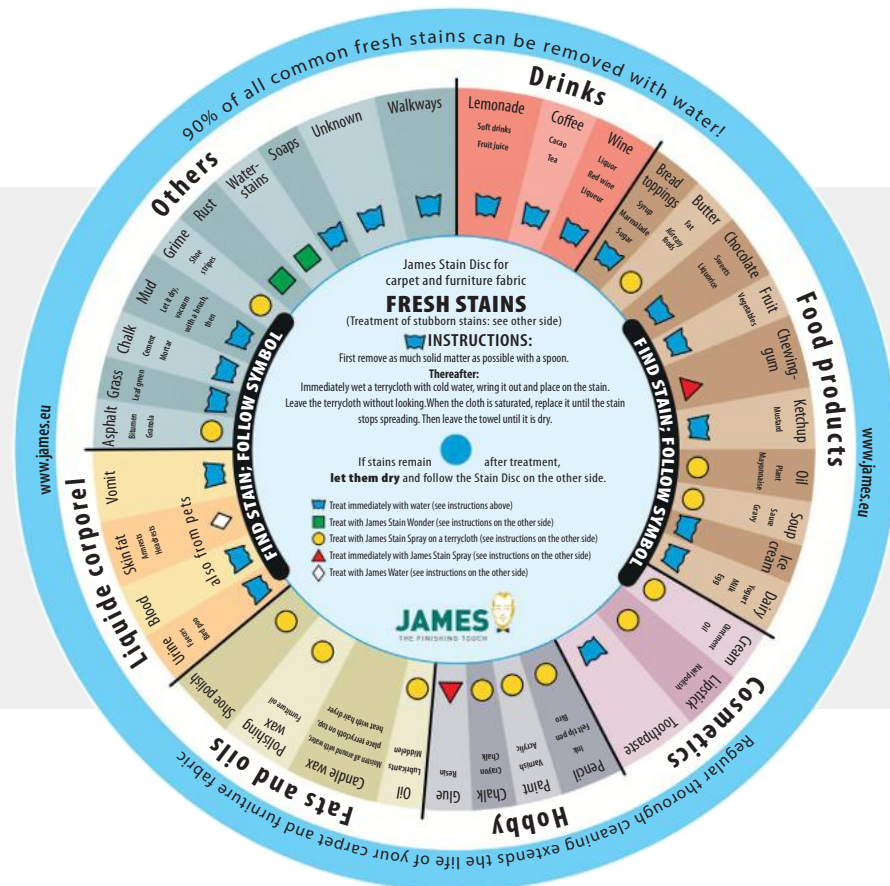

James is the only manufacturer of cleaning agents that states on the James stain disc and on the website that 90 percent of all fresh stains can be removed with water! James Stain Wonder's labels even state that you can use it, but that you must first perform a test.

Accurate dosing

James always accurately indicates the dosage when applying the cleaning products. If you adhere to the regulations, the product will work optimally and your carpet will be spotless again!

Avoid sharp objects

In addition to following our cleaning and maintenance advice for your carpet, we recommend that you do not place pointy or sharp objects/ furniture on the carpet.

Rooted
in tradition.
Inspired
by the world.
